		Website	

Entity Structure:	Corporation Partnership Proprietorship Other:	Subsidiary of an existing IOMA member?	Yes No
-------------------	---	--	--------

A. Gas Products Sold (Voting Member)			B. Gas Equipment (Associate Member)			C. Describe other "engineering or manufacture of products necessary and incidental to the manufacture and primary distribution of industrial and medical gases".					
P=Produce T=Transfill*	P	T	P=Produce E=Engineer	P	E						
Ammonia			Analytical								
Argon			Compressors			Other Association Memberships (enter years of membership)					
Carbon Dioxide			Cryogenic vessels			AIGA	CGA	EIGA	GAWDA	JIMGA	Other (list below):
Chlorine/Fluorine			Cylinder testing			Territory or primary area covered					
Cylinder gases			Cylinders			S = Sales Territory O = Territories with Operational locations				S	O
Fuel gases			Measurement			Multinational (more than one of the following areas)					
Helium			Pumps			North & South America					
Hydrogen			Regulators			Europe Middle East & Africa					
Medical gases			System Installation			Asia Pacific					
Nitrogen			Transportation			Number of employees engaged in the manufacture or sale of industrial/medical gases or gas equipment:					
Oxygen			Valves/safeties			Annual sales of gas related products/services (A+B+C)					
Specialty gases			Welding			Gases and gas equipment sales as a % of total revenue				%	
Sulfur Dioxide			Other:			Year company began gas or gas equipment business:					
Other:											

\*Transfill is the movement of gas/liquid product from one container to another container.

Representatives								
(Associate members are limited to 2 representatives)								
The value of IOMA is anchored in annual meeting attendance by our member's top executives.								
Name	Title	Email	Phone	Will attend Annual Meetings (see Value above)	Primary Rep	Invoice Billing contact	Include in Directory?

OPTIONAL: Applications may be SPONSORED by companies which hold Voting Membership in IOMA			
Such sponsorship is optional but does facilitate the approval process.			
Sponsor Name	Sponsor Company	Title	Email

I certify the information provided is accurate to the best of my knowledge. The applicant company agrees to comply with IOMA's bylaws and antitrust policy as well as applicable laws of the United States and supports IOMA's vision and mission statements.

Print Name: \_\_\_\_\_ Title: \_\_\_\_\_ Signature: \_\_\_\_\_

### Application Process

Process: Applications will be processed according to IOMA bylaws and policy guidelines.

Application Deadline: Applications must be received by the IOMA office at least six weeks prior to an IOMA Board of Directors meeting in order to be considered during the Board meeting. The Board meets twice annually, in the Spring and during the Fall Annual Meeting. Please contact the IOMA office for specific dates.

Dues: Membership dues payment must be submitted with this application form. If for any reason your application is not accepted, we will issue a refund promptly.

Applications with dues paid prior to the Annual Meeting are considered for the calendar year in which they are paid. Applications with dues paid after the annual meeting are considered paid for the subsequent calendar year. There is no pro-ration of dues paid for a portion of the year.

Number of Memberships: Separate memberships are available to “subsidiaries” (>50% ownership by another company) and “affiliates”.

Please include one (1) copy of your most current sales brochure if such information is not available on your website.

### IOMA By-Laws Article 3 and Policy Guide: Membership

<b>Section 3.1.</b>  <b>Voting Membership</b>	Any person, firm, or corporation substantially engaged in the manufacture and sale of medical and/or industrial gases, including but not limited to oxygen, nitrogen, argon, hydrogen, acetylene, nitrous oxide, carbon dioxide, and helium, shall be eligible to be a Voting Member in this Association after one (1) full year of operation.  From Policy Guide: For the purposes of section 3.1 of the bylaws, the term “manufacture” shall mean the separation of air; chemical manufacturing processes such as for hydrogen, carbon monoxide, acetylene, nitrous oxide, carbon dioxide and other specialty gases; purification of gases; creation of gas mixtures or blends , or the transfilling of containers where the phase of the gas changes, such as filling from liquid to gas. It shall also include moving product from one container to another such as the transfilling of liquid to liquid or gas to gas without phase change.
<b>Section 3.2.</b>  <b>Associate Membership</b>	Any person, firm, or corporation substantially engaged in the engineering or manufacture of products necessary and incidental to the manufacture and primary distribution of industrial and medical gases shall be eligible to be an Associate Member in this Association after one (1) full year of operation. Associate Members shall have no voting rights with respect to the affairs of the Association nor shall representatives of said Members be eligible for election as Directors or Officers of the Association.
<b>Section 3.3.</b>  <b>Application and Acceptance</b>	Any person, firm, or corporation desiring to become a Member of this Association may make application therefore (on a form approved by the Board of Directors) to the Board of Directors of this Association, which shall determine whether the applicant meets the eligibility requirements of the Association. Upon acceptance of such application by a majority of the Directors then in office and the payment of any initiation fees and dues for the current year, such person, firm, or corporation shall thereupon become and be a qualified member of this Association.

### IOMA’s Vision and Mission

Vision: *IOMA is devoted to supporting the growth & safety of the global Industrial gases industry.*

Mission: IOMA is the premier platform for networking among leaders of the world’s industrial and medical gases industry:

- to share learning experiences.
- to encourage innovation and new technology that advances the performance, productivity, environmental, sustainability and reliability of our industry.
- to actively support the development and adoption of effective and appropriate safety standards and regulations.
